

Building Resiliency to Extreme Weather Conditions Across Indiana Farmlands

August 8, 2017

1:00pm-4:00pm

Indiana State Fair -
Farm Bureau Banquet Hall

Conservation
Cropping
Systems
Initiative

This seminar will cover topics pertaining to challenges Indiana farmers have with extreme weather and building resiliency to those conditions.

Guest speakers include:

Dr. Jerry Hatfield, NRCS-ARS

Dan DeSutter, Indiana Farmer and Eisenhower Fellow

Blake Vince, Ontario Farmer and Nuffield Scholar

Discussion topics include:

- Precipitation timing and intensity
- Observations on management practices that can lead to improved resiliency
- Cropping systems in other countries that lead to more resilient soils
